

## Picture Perfect

Bride

Coat-hanger alley where the doctors work cheap  
Zodiac lover, you're in too deep  
She shakes like a mixer, puts down her cigarette  
She got the sweetest spirit I've ever, ever met, yeah

Nicotine angel with her head hung low  
Felt she's been sucked through a garden hose  
One night of pleasure ain't worth a lifetime of pain  
I watch the tears roll down her face like a heavy rain, yeah

She don't get her picture made no more  
She don't get her picture made no more, no more  
It's been a couple of months since she walked out the door  
Walked out the door

She had a smile that could light up the day  
Someone's put a frown on her serving tray  
She's all dressed in black, waiting on the cable car  
But I know the Lord won't let her go that far

She don't get her picture made no more  
She don't get her picture made no more, no more  
It's been a couple of months since she walked out the door

If she would come back, she'd be forgiven  
Ressurect your soul and start living

She don't get her picture made no more  
She don't get her picture made no more, no more  
It's been a couple of months since she walked out the door

She's picture perfect  
She's picture perfect  
She's picture perfect  
She's picture perfect and she walked out the door
