

Some Things Never Change

Bride

We all have a heart to segregate
Is that why she jumped from the Golden Gate?
Like a stunt gone bad, she didn't walk away
What's going on here? I think I've got something to say

She said she couldn't wait for the light to come
She had plenty of time, now look what she has done

Some things never change
Like the feeling that you know I can't explain
Some things never change
Like the feeling that you know I can't explain

She said she felt sick, daddy could get her high
I believe he gave her just one last ride
There is nothing in this world that we cannot overcome
God have mercy on the things he has done

She said she couldn't wait for the light to come
She had plenty of time, now look what she has done

Some things never change
Like the feeling that you know I can't explain
Some things never change
Like the feeling that you know I can't explain

Love is the answer, not the disease
I got the cure if you're ready to believe
Carol Ann climbed to the top of the bridge, flying high
Felt her soul vandalised, so she took her last dive

Homicide, suicide, our heroes become so weak
Poverty, bended knee - truth is what you need
Drug abuse, no excuse, 'cause we know the facts
I know it's hard 'cause they tried to break my back

Some things never change
Like the feeling that you know I can't explain

I believe in incarnation, virgin birth and jubilation
I believe in restoration, eternal life and celebration
Spirit filled intoxication, it is not imagination
Genesis and revelation, pray for his acceleration
Don't believe in suffocation
Can't you hear my demonstration?
Not brainwashed indoctrination
Give us strength in tribulation
Know our thoughts and situations
There's one hope and one salvation
It is for our generation
God is high for exaltation
