

Shake off the dust and leave this town
Gotta move up the road, can't settle down
See all that we've known since you were sixteen
From skylines to evergreens

Stayed up all night through New Mexico
Cheap hotels and cigarette smoke
We rise with the sun, southbound train
Move down the interstate

It's been a long while, the way it used to be
Is now just a memory out of reach
It wasn't easy to give up all we've known
Still have places left to roam
Left to roam

[?] gates
Reminisce about the old [?] days
The dreams that we had when life once owned
Tryin' to make this place feel like home

It's been a long while, the way it used to be
Is now just a memory out of reach
It wasn't easy to give up all we've known
Still have places left to roam

It's been a long while, the way it used to be
Is now just a memory out of reach
It wasn't easy to give up all we've known
Still have places left to roam
Left to roam
