

We Won't Go in Peace

Brighten

Talk to the waves as they pull me in
I can feel the warmth of a long lost friend
I believe in God but ill drown in sin
Filthy rich with a poor mans skin

And we don't like the way it hurts
We're afraid that it's a curse
Please do your best to learn
To learn from me

And we don't quote forever young
But we're livin it for fun
I can tell its just begun
So time to leave
And we will go
But we wont go in peace

I can hear the boots of a leather skin
He's a comin for me I will let him win
I'll protect my heart but neglect my kin
I can use the words, I can sink 'em in

And we don't like the way it hurts
We're afraid that it's a curse
Please do your best to learn
To learn from me

And we don't quote forever young
But we're living it for fun
I can tell it's just begun
So time to leave
And we will go, but we wont go in peace

And we don't like the way it hurts
We're afraid that it's a curse
Please do your best to learn
To learn from me

And we don't quote forever young
But we're living it for fun
I can tell it's just begun
So time to leave
And we will go, but we wont go in peace
