

A Light Above Descending

British Sea Power

Aelita dear didn't you hear
They've all gone now they're out of their minds
Collections of sound
Arrangement of tears
Take a look around
You're one of a kind
A light above descending
Below a dark ascending
It beats and finds a way inside
A place that no one else can find
For you I am returning
Francesca darling didn't you notice
Little Jean she doesn't care
Oxygen the formulation of muscle
Subjugation of pain till it's not really there
A light above descending
Below a dark ascending
It beats and finds a way inside
A place that no one else can find
For you I am returning
For you I am returning
It beats and finds a way inside
A place that no one else can find
For you I am returning
You will remember me won't you?
You do remember me don't you?
