

Albert's Eyes

British Sea Power

The emotion in a stomach acid is equal to the depth of Albert's
eyes
And all of the equations that were mastered belong to average o
rdinary life
Yeah I know, it's so Natural
Yeah I know, I've been here before

But only if I ask you
And maybe not at all

When you look down and see that you were playing upon the great
est oceanic truth
Yeah I mostly understand what you were saying
And after all there's quite a lot of proof

But only if I ask you
And maybe not at all
It's getting colder in Alaska
But round here it's getting warm
