Broken Iris

Is there anybody home
Am I the only one I know?

I'm alive, can't keep still
So I swallow what I feel
To use my heart and soul

I feel you by my side
Blinded by the light
Is there anybody there?
I hear whispers in my ears

You're my home
You're my home
Is there anybody? Yeah
[?]

You can hear my voice
With [?]
Come back, come back... home

I feel you by my side
Blinded by the light
Is there anybody there?
I hear whispers in my ears

You're my home
You're my home
Is there anybody? Yeah
