

# Looks Just Like the Sun

## Broken Social Scene

Looks just like the sun  
Looks just like it  
Looks just like the sun  
Looks just like it  
But it looks just like the sun  
Looks just like it  
But I'm breathing, thinking one

Heart is pounding in his chest  
Reaches suddenly for his gun  
Should be sailing in the West  
Flower that could be his fun  
(Keep going)  
Tree of families on his head  
Weary red, split open eyes

Looks just like  
Looks just like it  
Looks just like the sun  
And it looks just like it  
But it looks just like the sun

Darkness, still, it's obvious to everyone  
Still it's obvious to every

Well, it looks just like sun  
Looks just like it (Looks just like it)  
Looks just like the sun (Looks just like it)  
Looks just like it  
Looks just like the sun (Looks just like it)  
(Kevin, after this)  
Looks just like it  
(Here we go, Kev)  
(Looks just like the sun) Looks just like the sun
