

Turn Me On

Bromheads Jacket

chorus:

oh you turn me on

oh you turn me on

oh you turn me on

i'll be stuck in your mind you won't be able to turn me off.

2x

i like to think i've got you in my palm

got you in my hand

got you under my control

you love just to turn me on

love to make me glow

not in the middle of the night, though

i've got you right under my spell

got you deep in my soul

and i would ever let you go

you and me, we were meant to be

just like milk and tea

baby you set me free.

chorus 2x

our journey definitely advanced

like from England to France

i've got you in a trance.

your friends, they can hardly believe

about you and me

but we no longer need them, though

now i'm forever we've got each other

just like sister and brother

can't be moved from one another

not sure if you think this is a recession

you're under deception

i'm your obsession
