

# Self Taught

Brother Ali

I'm home

Uh, yeah

They always ask me, ' Ali, what you so angry for man? Why you always so upset? '

I tell 'em ' Shit, theres a thin line between anger and hunger my man  
And I ride a unicycle down the middle, you might catch me touchin feet down  
on both sides '

Ever since day number one, it's just me and where I'm coming from

Rites of Passage and Shadows on the Sun

My people, I stand before you, As a man with more true shit

Than what he knows to do with

I give it all to you, long as you can promise me this

When its time, you will ball up a fist (Like this)

Me and Anthony, we fill all the gaps

And are proud of what we make, regardless what happens

Fuck rappin, I sing off key

One thing you should never do is dis Ali

Cause, motherfucker, there aint nothin rougher

Then tryin to climb from the rug you'll get swept under

I can run through every one of your blunders

Mistake number one is that your crew don't love ya

Ill take a bullet for the Core or the Sayers

When me and my dogs out tourin the nation

I spit with an intensity you have to witness

Look close, my blood on the back of the tickets

Its that religious, its what I teach my son

How to read the Qur'an and how a party is won

We like ' Doctor, don't get it mistaken

We \*carve\* life out when we sit in the basement

We Self Taught, it's as real as you make it

Anyway you look at it this shit is amazing '

Doctor, don't get it mistaken

We \*carve\* life out when we sit in the basement

We Self Taught, it's as real as you make it

Anyway you look at it this shit is amazing'

When line meets mine, we bend ya girls spine

Figure-eight status, she got back for days

The same old magic will not crack the maze

The lights changed since we anted up, pot has been raised

And Im fucking with the hand I was delt

Life twenty-five years to experience what Lazurus felt

If you drop three crumbs, Ill eat one

Feed one to the family, rest I get invested in my freedom

I battle through \*a part in this shit\*

With a wrist, full of broken tooth picks, \*tryin to carve out a niche\*

You can either choose the heart or the fist, but you will connect with me

If your path ever intersect with me

The fire in the eye could never be held back, (its the same)

Pressure that made the liberty bell crack, (its the same)

Pressure that made my brother E sell crack, (in the name)

Qu'ran, holy, Rest in Peace

My back is bein watched by, the only one on high

We stride in the party, hoods up, crossed eyes

Broke as what, but dont give a fuck  
Cause I feel I got the world by the nuts, Uhh!

Doctor, don't get it mistaken  
We call life out when we sit in the basement  
We Self Taught, it's as real as you make it  
Anyway you look at it this shit is amazing  
Doctor, don't get it mistaken  
We call life out when we sit in the basement  
We Self Taught, it's as real as you make it  
Anyway you look at it this shit is amazing'

Homeboy understand, I aint mad at you  
Theres just very few things in life I know how to do  
And this is one of them right here

And whatever comes up comes out  
We dont put our hands on ourmouths, I stand for what I'm about  
Unknown but I'm still a soldier  
Can't let em go home till I win 'em over  
My youth was training, its very clear  
Every year, new city, new rules to play with (true shit)  
New kid in school, didnt rule nothing  
To this day I rap like Im trying to prove something  
Little bit aggressive, when I spit a sentence  
Till you get the message  
You couldn't pay me to quit professin'  
Rock sixty-one sold out shows, came home, and caught a bus to the  
sixty-second  
Shirt sweated full of work ethic  
Been in love with the shit since I first met it  
Rhymesayers is the first to come, last to leave  
Ain't no tricks up our sleeve, this is what we believe

We like ' Doctor, don't get it mistaken  
We call life out when we sit in the basement  
We Self Taught, it's as real as you make it  
Anyway you look at it this shit is amazing '  
Doctor, don't get it mistaken  
We call life out when we sit in the basement  
We Self Taught, it's as real as you make it  
Anyway you look at it this shit is amazing'
