Kiss And Tell

Brownstone

Hey

Chorus:
Oh oh

You know you're really driving me crazy
Baby
Why you wanna act so shady?
You know I wanna be your lady
Catch me coz I'm falling
In love with you
Darling, can you hear me calling?

Tell me if you kiss and tell
If you will that just won't do
I got something for your body
Stays between me and you

I never had a real lover
Cause all the guys I dated were too immature
All the love inside for you
I need your help to discover
Tell me what you wanna do; what's on your mind

I gave you my love and my life; my time, my everything
Chorus
Baby
You know you're really driving me crazy
You know I wanna be your lady
Why you wanna act so shady?
Darling, don't you know you hear me calling?
Catch me coz I'm falling
In love with you
So tell me ...

Tell me if you kiss and tell
If you will that just won't do
I got something for your body
Stays between me and you
****

To give you what a woman should
But as long as it stays between us baby
Never let our secret lose
I give my love, my heart my time my everything
Now baby it's up to you
Tell me what you wanna do

You know you're really driving me crazy
Baby
You know I wanna be your lady
Why you wanna act so shady?
Darling, can you hear me calling?
Catch me coz I'm falling
In love with you

If you will that just won't do

Tell me if you kiss and tell
I got something for your body
Stays between me and you

Repeat chorus till fade

Tell me if you kiss and tell
I got something for your body
Stays between me and you

Repeat chorus till fade
