

So Young And In Love

Bruce Springsteen

There's flying angels on your fire escape
They lie to your mama for you, try to keep you safe
You're with them fire alley virgins on a midnight vamp
Lost your heart on Main Street to a beautiful tramp
You lost your mind
She's sent from above
You're so young and in love
So young and in love
So young and in love
So young and in love
So young and in love

Rat traps filles with soul crusaders
They're sopping 'n' bopping 'n' mopping with Little Melvin and
the Invaders
Missy's on the dance floor doing her stuff
Leroy's dancing doing the continental strut
Sent from above
So young and in love
So young and in love
So young and in love
So young and in love

Everybody's reeling when the band hits the ceiling
Don't you know you wanna go
The kids start rocking when the boys start knocking
And everybody wants to go
Let's go!

Joint's shut down but you don't wanna go home
You're in the shady side of town and you're all alone
Papa's chewing your ear off 'bout hanging out with trash
So fine, sent from above
So young and in love
So young and in love
So young and in love
