

# What If

Brutha

See I knew from the jump that  
I was rotten to the core so  
Naturally I knew you'd pull back  
You made it clear that you wanted more  
So I attempted to please ya  
But my feelings go deeper  
Then it all came to a stop  
Because of a few heartless words we said

It's like me and you didn't even try  
We just said goodbye  
We let this love here die  
And never looked back  
In my mind I'm still questioning why  
Promises turn to lies  
Feelings bottled inside  
When the truth be told i...

I'm still wondering  
What if?  
What if?  
What if we would've worked out  
I believe we could've worked out  
If we worked a little harder  
Still imagining  
What if?  
What if?  
What if we would've worked out  
I believe we could've worked out

Worked a little harder  
Yeah if we worked a little harder

See I was looking for a reason  
To believe that love could work  
So I hope that you would be there  
That's the reason why it still hurts  
Now it's for you that I'm yearning  
Wish I could reverse our season turning  
It's this lesson I'm tired of learning  
Girl it's killing me to know

I believe that we share the blame  
For things being this way  
If mutually we wanna change  
I know we've got the potential  
And we can work out our issues

A little more time  
A little more patience  
A little more respect  
That's all it would've taken for us  
You're telling me a lie  
A little more effort  
Will make the world  
A little more time  
A little more patience

A little more respect  
You're telling me a lie  
A little more effort  
Will make the world

What if?  
What if?  
What if?  
If we would've worked a little harder
