

# I Don't Know

BSP

Frost destroys the sunshine  
Not so good for me  
Oh, secret deep in yellow  
Hidden just from me  
I don't know where to find your sunshine  
I don't know if you are on the road

You're wasted by glory  
And you try to smile  
Your eyes are blind windows  
Who's satisfied?  
I don't know where to find our sunshine  
I don't know if you are on the road

Your and my emotions  
Seem to fade away  
Parrot in grey house  
Will never sing anymore  
I don't know where to find our sunshine  
I don't know where in your empty world  
Maybe near the future  
You really can find your dreams  
Why do you try so hard I know you'll cry  
You and me really miss the chance

Frost destroys the sunshine  
Not so good for me  
Oh, secret deep in yellow  
Hidden just from me  
I don't know where you to find our sunshine  
I don't know if you are on the road  
I don't know where to find our sunshine  
I don't know if aou are on the road

Frost destroys the sunshine  
Not so good for me  
Oh, secret deep in yellow  
Hidden just from me  
I don't know where you to find our sunshine  
I don't know if you are on the road  
I don't know where to find our sunshine  
I don't know where in our brand - new world  
I don't know where in our brand - new world
