

# A Million Stars

BT

And it only takes a moment  
To step outside and let the rain  
Kiss your pain away  
Then surrender it to the sun  
'Cause the world is still spinning around  
So seize the day

'Cause you have come so far  
Watched a million frowns turn into smiles  
And lost all track of time  
Felt the energy of a million stars

You'll feel love again  
You'll feel love again  
After the rain

You'll feel love again  
You'll feel love again  
You'll feel love again  
After the rain

You'll feel love again  
You'll feel love again  
You'll feel love again  
After the rain

You'll feel love again  
You'll feel love again  
You'll feel love again  
After the rain

You'll feel love again  
You'll feel love again  
You'll feel love again  
After the rain

As the chorus turn to rivers  
Will take what's left when it subsides  
Information and perception  
Get swept away into past lives

And you have come so far  
But they refer to us only as past  
As words and thoughts collide  
The memory of love  
Keeps spinning in your heart
