

Represent

Bubba Sparxxx

I'm supposed to represent

I'm too motherfuckin raw to be all, worried if these broads, is fuckin with me

Y'all can suck my right and left nut with the same slurp

Nomore of the fames perks, I'm back in LeGrange hurt

Can't work, same dirt I thought I had wiped off

The same jerk that used to jerk Paul now he's my boss

Lonely if I lost, my light on the pathway

Nomore Bubba K., just as white as a trash day

Say you can take the boy out of the country

But can't take the country out the boy, even with money

I believe it was funny, I was deceivingly burning

At the Four Seasons, all four seasons with Sunny

But I'll be just fine, the grind's in my bloodline

It's what's in your guts time, baby I'm one rhyme

From being what that man paid me to be

Wasn't no concrete but I was raised by the streets

It's your turn, you supposed to represent

Do yo thang, you supposed to represent

Stop Playin', you supposed to represent

It's only right, you supposed to represent

It's your turn, you supposed to represent

Do yo thang, you supposed to represent

Stop Playin', you supposed to represent

Not only get money, you supposed to represent

Sometimes you gotta lose yourself to find out where you really are

Let the cut burn then you know you earned it when it scars

I been a star, my name rang bells

But it means not a thing if it can't bring sales

If you ain't seen hell you should get a load of this

Just a dose of hopelessness while you sip your Mo and Cris

If I ain't on your list, shit you can't win them all

But until he died, most of y'all ain't fuck wit Biggie Smalls

Atleast south of D.C. and west of Pittsbrug

That points, they don't know you 'til you resting in dirt

If resting is sure, a loser isn't sexiness

So make me the deadliest, MC I guess it just

Wasn't meant that I be mentioned with the greatest spittin then

Lord atleast let me get it up and pay the rent again

You may intend to win but my alternative's

The coffin or the furnacing, talking more determinant

What, you think I'm scared, you think I'm a pussy?

Really now, how far did you think you can push me?

Before I snap, just like that and bust back

Fear, he don't live around here, what's that?

What, you think I'm scared, you think I'm a pussy?

Really now, how far did you think you can push me?

Before I snap, just like that and bust back
Fear, he don't live around here, what's that?

Just stack, get your mind right and get your cheddar better
Volcano gone erupt, it won't lay at rest forever
Every level of the game, these country boys gettin to it
Nothin but your lips is movin, Hush you body shit and do it
I been knew it, you don't wanna jump bad
Hatin escalates and you don't want it to become that
I'm from that, dying breed of white MC
That knows what it's like to be told it ain't right to be
Rappin, now adapting just so happens it's the thing now
To get a cracker on your roster since Marshall came out
I can't explain how, vital time it is
Even now I wouldn't exchange our lives, mine for his
Like this
