

Get Down

Bubbles

Get down to the music - come on everybody.
Get down to the music - shake your body.
I don't know if it's wrong or right,
When I look at you and feel the way that I do.
Haven't spoke but I know your name.
How we talk at school,
How we played it cool.
Saturday night getting ready to go.
Heading for the city - a disco show.
Saturday night - every boy and girl.
Come on - we're gonna rock the world!
Get down to the music -
Shake your body - come on everybody.
Get down to the music -
Shake your body - come on everybody.
When we dance, we don't have to talk.
I can see your eyes and they aint telling no lies.
Getting closer the two of us.
Dancing in the dark.
Hear the beat of my heart.
Saturday night getting ready to go.
Heading for the city - a disco show.
Saturday night - every boy and girl.
Come on - we're gonna rock the world!

Saturday night getting ready to go (get down).
