

# Whats Done Is Done

Bubbles

Crazy about you, you didn't take long (to get) to know, making  
your way to my heart  
Something about you I couldn't care what it is  
Nothing could keep us apart  
Why did you hurt me?  
When I needed you to stay

What's done is done  
Done is done and I can't go on  
I tumble and fall  
Broke up in pieces my back against the wall  
What's done is done  
Done is done and I can't go on

It's time to begin  
I'm pulling myself together,  
Trying once again,  
What's done is done  
Losing direction running in the dark  
Realise I should have known  
Cards on the table Heaven is loving you  
I can't go on, on my own  
Why did you hurt me?  
When I needed you to stay

What's done is done  
Done is done and I can't go on  
I tumble and fall  
Broke up in pieces my back against the wall  
What's done is done  
Done is done and I can't go on

Something inside me tells me that it's true  
Am I still so in love with you  
What's done is done... What's done is done...

What's done is done  
Done is done and I can't go on  
I tumble and fall  
Broke up in pieces my back against the wall  
What's done is done  
Done is done and I can't go on  
(2x)
