When I was a young god, I could live without the laws I made my mess, I could live without you all If I starve from breathing, I won't listen to the call I made my bed, I'm committed, I am strong

They keep saying my generation's dead

Dead, we are helpless, we have nothing and nothing's wrong We're committed, we are hungry, we are strong Dead, we are restless, we are broken but standing tall We're devoted, we are driven, we are cause

I don't think that I have suffered, I don't think I've learned at all I get right back up and then I take another fall
My teachers told me something, they said that I would hit a wall
And if I keep it up I won't live to tell us all

They keep saying my generation's dead

Dead, we are helpless, we have nothing and nothing's wrong We're committed, we are hungry, we are strong Dead, we are restless, we are broken but standing tall We're devoted, we are driven, we are cause

Talking down to me and our generation Is this what you want to be, a contradiction?

I don't think that I have suffered I don't think I've learned at all I get right back up
And then I take another fall

Oh yeah, we are dead, I am dead Oh yeah, dead, my generation's dead Oh, oh, oh, oh

Dead, we are helpless, we have nothing and nothing's wrong We're committed, we are hungry, we are strong Dead, we are restless, we are broken but standing tall We're devoted, we are driven, we are cause, I am dead, oh yeah

We are dead, oh, dead My generation's Oh yeah, dead Suck it
