

Time Bomb

Buckcherry

The minute I'm at the backdoor that's the minute there's complication

The second I'm in the action another bonafied bad creation

When it goes down they come around money, greed, the faces

When it falls down they won't be found the spotlight queen chasin

It's coming for you it's coming for me life ain't nothing but bitches and money

Nothing to loose nothing for free can't stop now I got bitches and money

It's a time bomb

The moment I hit the bedroom that's the moment I'm activated

The token I spend to floor ya the less I want to know ya

The longer I get before ya puts out a blast like a super nova

And if you want a roller coaster just take a slow ride on my shotgun

Bitches and money!
