

Identity

Bucks Fizz

Make a stand, look the fool
Take a vote, over-rule
Everybody in favour
Say Aye! Aye! Aye!

Am I me, or am I yours?
The guarantee, what's the clause?
Have I been living a lie
For you to die-die-die?

I've been trying to see
Who's governing over me
Look around could it be
Big Brother is watching me?
I'm looking for my identity
My identity
My identity

So I sign the dotted line
Feels like doing time
Don't believe a word
It's not for you-you-you
Phoney lust is what I found
Both hands neatly bound
I vacation living it up in hell

I've been trying to see
Who's governing over me
Look around could it be
Big Brother is watching me?
I'm looking for my identity
My identity
My identity

Well I'm turning to the next man
He's staring at the wall
He's searching it, baby
So small, so tall
I can't be seen

I've been trying to see
Who's governing over me
Look around could it be
Big Brother is watching me?
I'm looking for my identity

I've been trying to see
Who's governing over me
Look around could it be
Big Brother is watching me?
I'm looking for my identity
My identity
My identity
