

January's Gone

Bucks Fizz

No sad goodbye
Just a moment waking all alone
No tears in my eyes
Just a feeling that I should have known

Dreaming
Summer should be so warm now
No thought of leaving
How will I ever know how
Oh, the right went wrong
Nights will be getting long
Now January's gone

January's gone
And I can't go on
January's gone
And after all this time
I thought our love would carry on
I was wrong
Now January's gone

Too blind to see
Should I ever listen to my heart?
Oh why, why me?
Was there something missing from the start?

Flying
Feelings would take me high then
No use in lying
Sometime I wonder why when
Oh, I miss her so
Memories linger on
But January's gone

January's gone
And I can't go on
January's gone
And after all this time
I thought our love would carry on
I was wrong
Now January's gone

January's gone

I never thought our love could end this way
I'll never know
How could something right
Turn out this wrong?
Can I go on now she's gone?
She's gone
