

Where Do I Go Now

Bucks Fizz

You, you've been running around
While I've been used, confused
Still, still you lie to me
And tell me that you care, yeah
I've made my mind up now
To live my life alone
Start it all again
Make believe I never needed you
But in my heart I know I do

So where do I go from here?
Which is the way that's clear?
Where do I go from here?
Where do I go now?

Baby, someday you will realise
It's how it's meant to be
You're no good for me
Oh I know that now
But still I love you anyhow

Where do I go from here?
(What do you do when there's no love there?)
Which is the way that's clear
(Take a chance, learn to try)
Where do I go from here?
(You gotta belong somewhere)
Where do I go now?

Where do I go from here?
(Where do you go when you're on your own?)
Which is the way that's clear?
(It's not easy to find a way)
Where do I go from here?
(You ought to know by now)
Where do I go now?
