

## Thick Like Mississippi Mud

Buddy Guy

The whiskey and the women  
They can drop you to your knees  
Hey I say good whiskey and the women  
They can drop you to your knees  
Man been hunting lord  
Since Adam got a hold of Eve

Some people think I'm stone crazy  
They think I've lost my mind  
Some people think I'm crazy  
But I'm doing just fine  
Nobody wants to break their own rules  
But they have no problem breaking mine

I've been around the world  
I know, I know the world is round  
I've been around the world  
Hey I know the world is around  
You know those blues have took my life  
And turned it upside down

The smoke is getting thick  
Thick like Mississippi mud  
Oh the smoke is getting thicker  
Thick like Mississippi mud  
That's how many people at his party  
Ohhh I can't even get drunk

I've been around the world  
I know, I know the world is round  
I've been around the world  
Hey I know the world is around  
You know those blues have took my life  
And turned it upside down
