

Hole In My Head

Buddy Miller

Hole in my head hole in my head
I need a girl like you like a hole in my head
I need a girl like you like hole in my head
Let's just say we will and then don't instead

Wild goose chase wild goose chase
You're gonna take me girl on a wild goose chase
You're gonna take me girl on a wild goose chase
You'd better find somebody to take my place

You took my imagination
And stomped it in the ground
Now I can only dream about you
And chase the tracks you left around

Hole in my head hole in my head
I need a girl like you like a hole in my head
I need a girl like you like hole in my head
You make me feel so bad I wish I was dead

It must have knocked me crazy
It must have hit me hard
People must think I'm lazy
Like my shuffle's short a playing card

Let the games begin
Here I go again
Can't see how I'm gonna win
I need you girl like a hole in my head
