

House of a Sinner

Budgie

Send me a note, the black spot is something I know
Three diamonds of mine, whiter than the driven snow
Time passes by, in time, time dies
If quality falls, they know of a place they can send me
If there's a war they can't excommunicate me
Now, you got it wrong, what have I ever done?
Help me, help me, help me now
Take this pain away

In the house of a sinner, this house of a sinner
The house of a sinner, the house of a sinner

Oh, help me, help me now
Don't you let me stay

In the house of a sinner, the house of a sinner
The house of a sinner, the house of a sinner

Lost in the world, can't make my life here alone
Wait for the chance, someone might call on the phone
Oh, I'm killing time, and you're still in mine
Time passes by, in time, time dies

Help me, help me, help me now
Take this pain away

In the house of a sinner, this house of a sinner
The house of a sinner, the house of a sinner
