

# Love Is Enough

**Budgie**

Love, love, love is enough  
All through the storm it will keep you  
Love, love, love is enough  
Fill up your heart and be free

Love, love, love is the stuff  
Better than gold, making you whole  
Drink, drink, drink from the cup  
Fill up our soul and be real

Close your eyes and think about it  
All the light will go without it  
Put away your fear about letting go  
So you'll find life in the word

Love, love, love is enough  
No more in need, no more to bleed  
Love, love, love is enough  
Make it your life and be free  
Lift up your heart and be free
