

## In the Ice

Buffalo Tom

Well, I knew I had to choose  
I had so much to lose  
See, the freeze settles in  
And just locks me down there  
In the ice

I'm like cubes in a tray  
And they lock me away  
In a freezer for the day  
It just locks me down there  
In the ice

Carolina in my mind  
Over reaction every time  
I need quiet and peace  
Or I'll never break free  
Of the ice  
I just froze in down here  
In the ice

When the lights went down and they closed up the bar  
And I walked away but only got so far  
Anybody else could see  
What had become of me  
When I went down  
And I went down

When you saw me outside  
And you offered me a ride  
I politely declined  
Or I thought that I did  
In the ice

I was frozen down there in the ice  
And I'm frozen down here in the ice  
And I'm frozen down here in the ice  
And I just keep on losin' my mind  
'Cause I'm frozen down here in the ice  
Frozen down here, in the ice  
Frozen down here, in the ice  
Frozen down here, in the ice
