

# Hearts Collide

Building 429

Stars go dim  
The sun will descend  
The kingdoms will end  
But we will not we will not bend

Shadows will fall  
Darkness surrounds us all  
We will wait for the dawn  
But we will not we will not crawl

This hour  
This moment  
We gotta rise up and own it

Hearts collide  
Like sparks in the night  
Gotta show 'em what we're made of  
(show 'em what we're made of)  
Show 'em what we're made of  
You and I  
Like fire in the sky  
Gotta show 'em what we're made of  
(show 'em what we're made of)  
There's nothing were afraid of

Show 'em what we're made of

One for all  
Even up against the wall  
We will answer the call  
We'll never back, never back off

This hour  
This moment  
We gotta rise up and own it

Hearts collide  
Like sparks in the night  
Gotta show 'em what we're made of  
(show 'em what we're made of)  
Show 'em what we're made of  
You and I  
Like fire in the sky  
Gotta show 'em what we're made of  
(show 'em what we're made of)  
Theres nothing we're afraid of

Show 'em what we're made of

Show 'em what we're made of

Oh no we'll never bow love  
(gotta shout it gotta let it out let it out)  
Oh no we'll never bow love  
(gotta shout it gotta let it out let it out)  
Can't silence our love  
Can't silence our love

Can't silence our love  
Can't silence our love

Hearts collide  
Like sparks in the night  
Gotta show 'em what we're made of  
(show 'em what we're made of)  
You and I  
Like fire in the sky  
Gotta show 'em what we're made of  
(show 'em what we're made of)  
Theres nothing we're afraid of
