Insurrection Of The Living Damned

Bulldozer

Screaming for revenge, I will destroy their world All those sick bastards, sisters just the first And I will fight for, the revenge of hell Rape the nun virgins, victims in their cell

Hate the law of preachers Scorn the light Hunters of the graveyards Join the fight Stupid priests die! Good on fire!

I just can tell you, the way I will pretend Take the innocent soul, treat her like a friend Welcome her in your room Break her two holes, till it reaches the neck

This is the only way, we don't feel remorse Show your power to the brides, From the king they will devorce Set their soul free, they will give you all Both the soul and the body, that's the final fall
