

## High on the Hog

Bullet

She's got a smooth way of walking  
Takes it down with a rude way of talking

We're just launched as it once was your way  
There to live for one way  
What you want? She's got a gun  
She's gonna get your gun

She's high on the hog  
Gonna get you down and pull you up  
High on the hog  
I pray that we're ready to roll, I'm 'bout to go  
That's right

Night time is right for a sweep  
Had the prey like a wolf running free

We're just launched as it once was your way  
There to live for one way  
What you want? She's got a gun  
She's gonna get your gun

She's high on the hog  
Gonna get you down and pull you up  
High on the hog  
I pray that we're ready to roll, I'm 'bout to go  
'Bout to go

You know what I'm talking about?  
She's high on the hog  
Come on now  
Mr. Detroit show me what you got

She's high on the hog  
Gonna get you to white off your lines  
High on the hog (so high)  
You know the kind, you're coming up now  
High on the hog  
But always complainin' and a woman defends you the boy  
High on the hog  
I pray that we're ready to roll, I'm 'bout to go  
'Bout to go
