Harmony Of Death

Burden Of Life

This decision makes me crawl Though it makes me yawn for more As it sends me through a track Full of traps and ways to die

Ridiculous it seems

For you for the rest not for me

May I ask you one last question

When did you lose your sense for sanity?

Every note You play to me Carefully Cuts my throat

While I try to stand my ground You sing the Harmony Of Death It makes me crumble watch me fall Watch me how I learn to decompose

Every note
You play to me
Carefully
Cuts my throat

Every note
You play to me
Carefully
Cuts my throat

Every note
You play to me
Carefully
Cuts my throat
