

Couldn't Give 34 Fucks

Buried In Verona

10pm heading out to the place
drinking 24/7 baby setting the pace.
I got my 5 best friends names on the door,
walk straight in and we'll be drinking some more.
Get your swagger on tight for the girls
on the floor but don't give em too much,
leave them wanting some more.
Get the shots up next yeah the first one burns,
line em up motherfuckers you got the next turn.

We'll be fucking this place up,
We'll be fucking this place right up,

Why the fuck are you here if you're not here to drink,
fuck that line em up till you can't even think,
why the fuck are you here if you're not here to dance,
fuck that pick it up till you cant even stand.

Why the fuck are you here if you're not here to drink,
fuck that line em up till you can't even think,
why the fuck are you here if you're not here to dance,
fuck that pick it up till you cant even stand.

Face feels numb it's getting harder to walk,
got some blurred ass vision and I'm slurring my talk,
found my 5 best friends into a fight,
bouncer's trying to tell us it's the end of our night,
we got dragged outside away from the light,
white knuckles bared time to roll those dice,
we all thew down intro'd our fists to their face,
knocked em all out and fucking walked away.

We'll be fucking this place up,
We'll be fucking this place right up,

Why the fuck are you here if you're not here to drink,
fuck that line em up till you can't even think,
why the fuck are you here if you're not here to dance,
fuck that pick it up till you cant even stand,

Why the fuck are you here if you're not here to drink,
fuck that line em up till you can't even think,
why the fuck are you here if you're not here to dance,
fuck that pick it up till you cant even stand,

Tear this place apart,
at the bar until the sun come's up,
we'll fucking tear this place apart,
drink all day till we see the stars,

Tear this place apart,
at the bar until the sun come's up,
we'll fucking tear this place apart,
drink all day till we see the stars,

We'll be fucking this place up,
