

## Hurricane

### Buried In Verona

Don't let your heart give way  
'Cause it just might be the last time  
You can take it  
I know the past has been cruel  
But that's a hurt you remember  
And you can use it

Let's keep marching on  
Let's all keep marching on  
Push aside all the broken times  
Break away and leave the past behind

Hurricane take us away  
Spit us out and start again  
Far away from all the wasted life  
We've seen  
Hurricane take us away  
Leave behind our misery  
In the wake of the destruction we have seen

Will you look back on your life  
And know you did all you could  
To live alive be happy  
Don't let the past bring you down  
Mistakes are lessons you learn from  
Just pay attention

Did you crawl did you claw did you fight back  
Did you walk did you hit did you fight back  
Did you push till it cracked did you fight back  
Did you love just enough to get love back

Let's keep marching on  
Let's all keep marching on  
Push aside all the broken times  
Break away and leave the past behind
