

# Revival

## Buried In Verona

Rip it out  
Are we the last thought on your mind  
Tonight, this is killing us  
Too many times to count we got pushed down, left by the way side  
I'm sick n tired of being lied to might as well just spit it out.

Push  
Till the cities are falling down  
Fight  
Like your life is on the line  
Take  
All that is owed to you  
Life has limits and we live on the edge of them

Breathe  
Like you don't have long to be  
See  
Like your vision will end today  
Feel  
As if we can live again  
Scream so loud that you wake up the dead

Are we the last thought on your mind  
Tonight, this is killing us  
Too many times to count we got pushed down, left by the way side  
I'm sick n tired of being lied to might as well just spit it out.  
Get it out  
Rip-it-out

Numb so long but I think I can feel again.

We  
Are the ones you love to hate  
We  
Gave it all for you to take  
We  
Won't make the same mistakes  
If it's an eye for an eye where the hell are the rest of them

Went down  
Thought we could never get up again  
Love it so much that we had to turn it round  
Time  
All we need is time  
Here we go this is it  
This is how we're revived

Scream so loud that you wake up the dead
