### Buried In Verona

I blame you. You exhaust me, bait me  
I feel nothing but hate.  
These shattered memories contain all of the struggles, goodbyes  
Your acid tongue burns no more and I am healing  
I fucking hate the fact you think you can do anything you like  
There are the lines that you have crossed  
You're fucking hopeless, you're fucking helpless now  
I will crush you without even touching you  
I will crush you without laying a finger  
I will stand above the dirt and the scum that's bound to surface  
That's when you'll see your nothing to me  
You're nothing to anyone, and you never will be  
Will you make it out alive or will you burn up in the fire?  
You've always taken everything. There's only bones left now to bury  
Will you make it out alive or will you burn up in the fire?  
You've always taken everything. There's only bones left now to bury  
Bones left now to bury  
There's only bones left now to bury...  
There's only... Oh, oh!

My path is broken, it's time to face the end

Your face is slowly (slowly) fading away in wind

Your face is slowly fading away in wind
