To understand Nigeria, you need to appreciate where it came from
In 1900, Britain officially assumed responsibility for the administration of
the whole of what we now know as Nigeria from the Niger Company
And then, gradually over the years, British protectorates were established throughout the territory
In 1914, the protectorates were amalgamated into one Nigeria
Actually, there's one additional detail that bears mentioning
In order to take over the territories from the Niger Company, the British Government paid 865,000 pounds
A huge amount in 1900
So let's establish a simple truth, the British didn't travel halfway across the world just to spread democracy
Nigeria started off as a business deal for them, between a company and a government
Incidentally, the Niger Company is still around today
Only it is known by a different name, Unilever
But that's another story

It's Kel-P vibes
