

## From You

## Burning Brides

if I can fit in this cardboard box  
you can close me in and seal the top  
and in your legible penmanship  
you can write these words on the package slip

doesn't matter where I reside  
you can send this off to wherever you like

all I want is far away from you

you don't let anyone see you cry  
you don't wanna live  
you don't wanna die  
and you mean everything to me  
like a broken light on the Christmas tree

I can always erase myself  
and draw these lines in somewhere else

all I want is far away from you

I will bury the season's change in you  
and I hope everything stays the same for you

you

la ah
