

Lovesick

Burning Brides

What falls apart comes back together
The body heals with time
You're all I want to know (oooh)
You and I, are once again felling lovesick

Shake your bones
Shake your bones

You're all I've got
You're all I fail for
When all I see goes blind
Well I can still see you (oooh)

You and I are once again felling lovesick

Shake your bones
Shake your bones

Here is the only cut, that I could not feel
Here is the only cut, that I could not heal
The one mistake I make with you (aaah)
The one mistake I make with you
Shake your bones
