

# Stormbringer

## Bury Tomorrow

Set fire to the rope that binds, remove the veil that has covered your eyes  
Tear the bricks from the walls inside, no respect for the symbol that flies  
Process the feelings, and send it the order, let them know we are destroying borders  
Watch them try to rebuild their power, as we stand a relentless tower

Fear, is how they command the helpless, crush the will, no room for surrender  
Hear the cries of the lawless, let them be the voice for us

Controlling with your power, it's all you have  
We'll burn it all you cowards  
Let us take it back  
Have you learnt a lesson?  
A new opposition?  
A regime undone  
Redefine or redesign it all

Storm bringers  
Force the fall  
Storm bringers

Fear, is how they command the helpless, crush the will, no room for surrender  
Hear the cries of the lawless, let them be the voice for us

Controlling with your power, it's all you have  
We'll burn it all you cowards  
Let us take it back

Burn, burn the flag  
A notion defamed  
A nation repaid  
Burn, burn the flag  
A notion defamed  
A nation repaid

Controlling with your power, it's all you have  
Controlling with your power, it's all you have  
We'll burn it all you cowards  
Let us take it back  
Let us take it back
