

Machinehead

Bush

Breathe in breathe out
Breathe in breathe out
Breathe in
Breathe in breathe out
Breathe in breathe out
Breathe in

Tied to a wheel fingers got to feel
Bleeding through a tourniquet smile
I spin on a whim slide to the right
I felt you like electric light
For our love
For our fear
For our rise against the years and years and years

Got a machinehead better than the rest
Green to red machinehead
Got a machinehead better than the rest
Green to red machinehead

I walk from my machine
I walk from my machine

Breathe in breathe out
Breathe in breathe out
Breathe in

Deaf dumb and thirsty
Starting to deserve this
Leaning on my conscience wall
Blood is like wine
Unconscious all the time
If I had it all again
I'd change it all

Got a machinehead better than the rest
Green to red machinehead
Got a machinehead better than the rest
Green to red machinehead

I walk from my machine
I walk from my machine

Breathe in breathe out
Breathe in breathe out
Breathe in

Got a machinehead better than the rest
Green to red machinehead
Got a machinehead better than the rest
Green to red, yeah yeah yeah
Better than the rest
Better than the rest
Machinehead, head, head, head, head, head, head head

I walk from my machine
I walk from my machine
