

# The People That We Love

Bush

Speed kills coming down the mountain  
Speed kills coming down the street  
Speed kills with presence of mind and  
Speed kills if you know what I mean  
Got to feel - woke up inside again  
Got to feel less broke more fixed  
Got to feel when I got outside myself  
Got to feel when I touched your lips

The things we do to the people that we love  
The way we break if there's something we can't take  
Destroy the world that we took so long to make

We expect her gone for some time  
I wish her safe from harm  
To find yourself in a foreign land  
Another refugee outsider refugee

How's it feel she's coming up roses  
How's it feel she's coming up sweet  
How's it feel when it's all in spite of you  
How's it feel when she's out of your reach

The things we do to the people that we love  
The way we break if there's something in the way  
Destroy the world that we took so long to make

We expect her gone for some time  
I wish her safe from harm  
To find yourself in a foreign land  
Another refugee outsider refugee

What happened to you  
What happened to you  
What happened to you

The things we do to the people that we love  
The things we do to the people that we love  
The things we do to the people that we love  
The things we do to the people that we.....  
That we love
