

# One False Move

C-Murder

R:

See everybody wanna fake and pretend  
But me im tired of goin in and outta the pen  
Im done with disobeyin the law  
One false move and ill be back in the yard, (This is for my thugs)  
If i had a choice i wouldn't do it again  
Ill unload the clip and conversate with my friend  
Now this thing shouldn't be that hard  
I done lost my dog now im fallin apart

They got me caught up in a situation, hectic, got me crazy like glue  
My homies dyin for colors, but me im ridin for true  
See i aint sidin wit you, im always dodgin the blue  
I got two records on the rise, im only signin my crew  
Forever loyal, no lyin  
No broken links, come try  
Ima rep the CP3 until the day that i die  
Daddy threw it at me, but then i threw it right back  
Tried to hit me wit dat curve, but ima fool wit dat bat  
Now how you like me now, im gettin bigger, and richer  
A third world villian, come here shorty take a picture  
Still thuggin in the streets all day, just a lil bit  
You see dem cutboys loadin, now thats a real click  
Straight goons wit sum change, bust brains, maintain  
Im the same lame wit sumin to gain  
So i pray for em tryna cross, cuz im the boss  
Papi's moves was false, now he lost, the streets cost

Im havin visions of a nightmare, every suckas playin me close  
Im on the cover of the source, with america's most  
So many memories of thuggin, and pushin it to the limit  
Didn't have it, I had to get it, them forces im comin wit it  
Them wigs was gettin splitted, im tatted up ya dig me  
Task was tryna kill me, railroad n deal me  
I had to make em feel me, no duckin n hidin  
200 on the dash of the whip i was drivin  
I hit the studio, let the pain flow  
Watch the grange dro, rock that chain low  
Calio the same coat  
Dirty G, Porch Boy Rest In Peace  
I wont let them bustas bury me mane, ima beast  
Drinkin 1 and 1's, 2 and 3's, and let my mind free  
Im against the wall, cuz my enemies behind me  
They wanna see me in the bin or the pine b,  
Im under the radar homie, you'll never find C
