

Bringing Me Down

Cactus

When I see your face I front of me
Something happens in my mind
I get a feeling
That my love begins
Hoping someday you'll be mine
Now I see you walking beside me child
I get a feeling
It's hard to light
When I'm thinking that i'll change them all
Something hits me from behind

And you keep bringing me down, baby
Bringing me down
Baby you make me feel so good
Some people won't stop
Woman will you stop
Bringing me down

Someday baby
You will understand
What to do when them & I cry
I'm just runnin' from your friends
You won't stand
Now with no-one by your side

And you keep bringing me down, baby
Bringing me down
Baby you make me feel so good
Some people won't stop
Woman will you stop

Bringing me down
Bringing me down
Bringing me down

Bringing me down
Bringing me down
Bringing me down
Bringing me down to you

Bringing me down
Bringing me down
Bringing me down

Bringing me down
Bringing me down
Bringing me down

Bringing me down
Bringing me down
Bringing me down

Bringing me down
Bringing me down
Bringing me down
