

## Call Me

Cadet

I think about love, I think about life, I think about rock  
I think about the times we used to hangout after school  
I think about things, I think about you  
I think about love, I think about life, I think about God  
I think about the times we were loser acting cool  
I think about you  
You better call me, if you're going under  
You better call me, before I lose another friend to misery  
And if you're lonely, the we could T.P.  
Just like we're thirteen  
Throwing our worries ove rooftops and running off  
And if ever you stumble, if ever you crumble  
Just know I wont let you go
