

God Man

Cadet

Here's to him my guardian
There he is
He moves faster than light
His body holds tremendous might
His face doth shine ever so bright
His enemies tremble with fright
Jesus is my superhero
Once he died for me
I'm his trusting sidekick
We will beat the enemy
There he is
He labors day and night
Somehow i'm always in his sight
Without a doubt he'll do what's right
With any foe he'll win the fight
Evil's on it's way
But my savior's here to save my day
