

Fire and Faith

Cain's Dynasty

I'm gonna tell you
The things that changed my life
Dark and cold was the night
The hand of God is shelter for ones
The hand of God is cruel for the wicked souls

Justice flames are coming here
Signs of good are really near
There's no choice, there's no forgiveness
There's no redemption for sinners

I am the shining hand of God against darkness
I will condemn and purify your madness

Forgive me my master
I fell in love with darkness
Forgive her my master
And let us see your greatness

Where's God's love and piety?
Where is God's mercy?

Apprehend her!
God's rage made man...
Let's go burn her!
She'll be ashes...

Forgive me my master
I fell in love with darkness
Forgive her my master
And let us see your greatness

Heat begins in this winter night
A cold night to burn a witch...

You will bring the death to every one you love
You are a sinner not a servant of God!
And you are a witch!
You will corrupt even the purest heart
Prey! Repent! Prey!
Burn!

Forgive me my master
I fell in love with darkness
Forgive her my master
And let us see your greatness
