

# Screaming Lungs

Cain's Dynasty

Now I find the way to survive  
Fighting through the years  
Now I'm here to describe  
and defeat all my fears

Day by day I walk in a lonely road  
I never loose the hope  
I've been never broken  
You can feel this voice  
You can feel its strenght  
Year by year I dream  
with a future that now is here

I am a beast emerging from hell  
I am a beast rising from the ruins of the past  
I am a beast unleashed from the depths of hell  
I am a beast now I can give you the best  
I am the screaming lungs

Now no one can stop me  
I'm far away from all the liers  
Now I know and control the game  
Is the time for the victory

Day by day I walk in a lonely road  
I never loose the hope  
I've been never broken  
You can feel this voice  
You can feel its strenght  
Year by year I dream  
with a future that now is here

I am a beast emerging from hell  
I am a beast rising from the ruins of the past  
I am a beast unleashed from the depths of hell  
I am a beast now I can give you the best  
I am the screaming lungs

I brought you a legacy of blood  
and I fought against Madmen, Witches and Vampires!!

I am a beast emerging from hell  
I am a beast rising from the ruins of the past  
I am a beast unleashed from the depths of hell  
I am a beast now I can give you the best  
I am the screaming lungs

Yes I am the screaming lungs
