Where Would I Be?

I've been waiting for so long I've been hoping your love's not gone Houses are sliding in the mud Rivers are raging in your blood

Where would I be without your love? Where would I be without your arms around me?

You were to be the only one If I knew you I would not run You have been cloudy, distant, dark I'm thinking of Noah and the ark

Where would I be without your love? Where would I be without your arms around me
