

A Crack In Time

Calvin Russell

I came down the line
Through a crack in time
Slipped between two seconds in the night
From the shadows I sprang
Someone screamed my name
And I headed for the morning light

Out on the edge I go
And god only knows
Anything goes down there
Black is white when you
Run through the night
You got to fight somewhere

Way down there
Where only one thing is real
I'll have to do anything
To live how I feel
Way down there
Where only one thing is true
I will do anything
To get next to you

I ran through the street
And the sound of my feet
Echoed off an empty sky
Two and two is five
And it's hard to survive
No one can tell me
Why
